### DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### *Claim Rejections - 35 USC § 102*

Claims 12-14 and 16 stand rejected under 35 U.S.C. 102(b) as being anticipated by Mani ('236) of record for reasons of record.

Claims 12-14 and 16 stand rejected under 35 U.S.C. 102(b) as being anticipated by Mani ('225) of record for reasons of record.

#### *Claim Rejections - 35 USC § 103*

Claims 1-11 and 15 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Mani ('236) of record for reasons of record.

Claims 1-11 and 15 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Mani ('225) of record for reasons of record.

#### *Response to Arguments*

Applicant's arguments filed 1/19/06 have been fully considered but they are not persuasive.

Applicants argue that the present invention differs from the Mani patents by reciting further structures such as the bipolar membranes and the alternating anion and bipolar membranes as claimed.

The use of the term "comprising" opens the claim up to other structures, which are not recited within the claim. Thus, while the Mani patents do disclose the alternating the anion and bipolar membranes, the bipolar membranes take the place of the electrodes to split water to form the hydronium and hydroxyl ions. The salt chamber would read upon the cathode chamber of the instant application, since figure 8(a) shows the formation of lactic acid with the formation of a basified lactate containing solution, which is fed back to the fermenter.

Accordingly, the claims stand rejected.

#### *Conclusion*

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

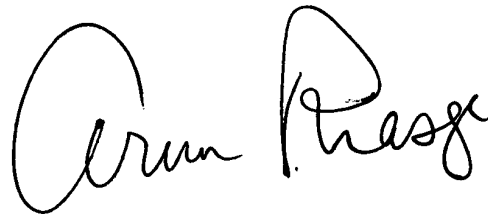

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
